

Cikisi Diagram

Cikisi Diagram

- Sources: Cikisi library + client, which feed the themes.
- Themes: workspace where you have access to the data shared by the sources.
- Concepts : set of queries to be used in the theme.
- Saved searches: to filter the content of the topics in order to increase the relevance of the results.
- Items: articles resulting from the search.
- Collections: folders used to save items deemed interesting (read or to be read).
- Alerts: created from collections or saved searches, used to transmit information on a daily, weekly ... basis
- Newsletters : customizable structure, used to transmit information on a weekly or monthly basis.
- Reader's portal: online portal accessible to Cikisi users with a reader's profile, in which they will have quick access to alerts, newsletters and collections selected by the platform managers.
